

Notice of Project Change

Project Name: Belleville South Solar

Project Applicant: Northland Power Solar Belleville South L.P.

Project Location: Part of Lots 61 and 62, Concession 2, Prince Edward County, Ontario

IESO FIT Number: FIT-FK4CUPU

Project Description

The Belleville South solar project is a Class 3 solar facility with a maximum name plate capacity of 10 MW and uses solar photovoltaic technology to generate electricity. The project has been operating since 2013 under Renewable Energy Approval (REA) #8277-8RYRBG.

Project Change

Northland Power is proposing to install a small diesel storage tank with a maximum capacity 1200 L on the project site to fuel maintenance equipment. To allow for the installation of this storage tank, Northland Power has applied to the Ministry of the Environment, Conservation and Parks to amend the project's REA.

Project Documents

A Modifications Document has been prepared to provide additional information on the proposed project change, including a summary of how previous REA supporting documents have been revised. This document is available online at https://northlandpower.com/What-We-Do/Operating-Assets/Solar/Belleville_South.aspx
